Do we have the contact info for BIA in that area? Can Marisol look into this?

Hi TIPD,

Would you mind checking in with your contacts at BIA to see if they plan to attend this or are aware of the meeting?

Thanks,
Adrienne

Martha, This site is well familiar to LCRD, it was a municipal dump nearby the reservation that is regulated by the State.

EPA and CalEPA addressed community concerns related to this site some years back. I took a look at the info available to me, and we haven't seen any new data or information since we last sent our toxicologist along with ATSDR out to the community.

LCRD, could you check in with Zoe at CalEPA to come up to speed on recent developments? Martha is not available to attend this meeting, could you let us know if LCRD will staff it?

I also notice they have not invited the BIA, who in the past I believe funded some of the studies the tribe conducted. Please consider forwarding this to BIA.

Thank you,

LE

Laura Ebbert

Hi- not sure if anyone's been able to huddle with calepa on this yet.

Let's discuss more next week and establish a lead. I'd like us to respond next week.

Thanks!

Hello,

I am writing at the request of Concerned Residents of Laytonville to ask you to attend, and bring the appropriate staff, to an important community meeting Thursday, June 16th at 6 pm. The meeting is to update the community, elected officials and government agency leaders and staff about the serious and ongoing health crisis impacting residents that many believe is the direct result of exposure to contamination from the old landfills.

Residents will share their stories, concerns and requests, and we look forward to a constructive discussion about how to get people out of harm's way.

Please let us know if you are able to attend, thank you.

The invitation flyer is attached.

Peggy Hoaglin, Concerned Residents of Laytonville
